The process...

- 100 point scale
- Each school/district is given objectives based on groups of students
- An objective is considered fully met if the MEAN score of all students in that group meets the target mean
- If the mean is not high enough, but is higher than the previous year, then partial credit is awarded
- Areas of measure are weighted and added together to create the total grade
- 2013 Mean Scores
 - Elementary - 635
 - Middle - 628
