SHOWCASING PROFESSIONALS
AND REACHING KIDS

Students meet professionals from a variety of careers who share what their jobs are like and the paths that led them there. Through these experiences, students learn how communication, teamwork, and leadership are used in real-world settings. They also gain an understanding that these skills are valuable across all careers and future paths.

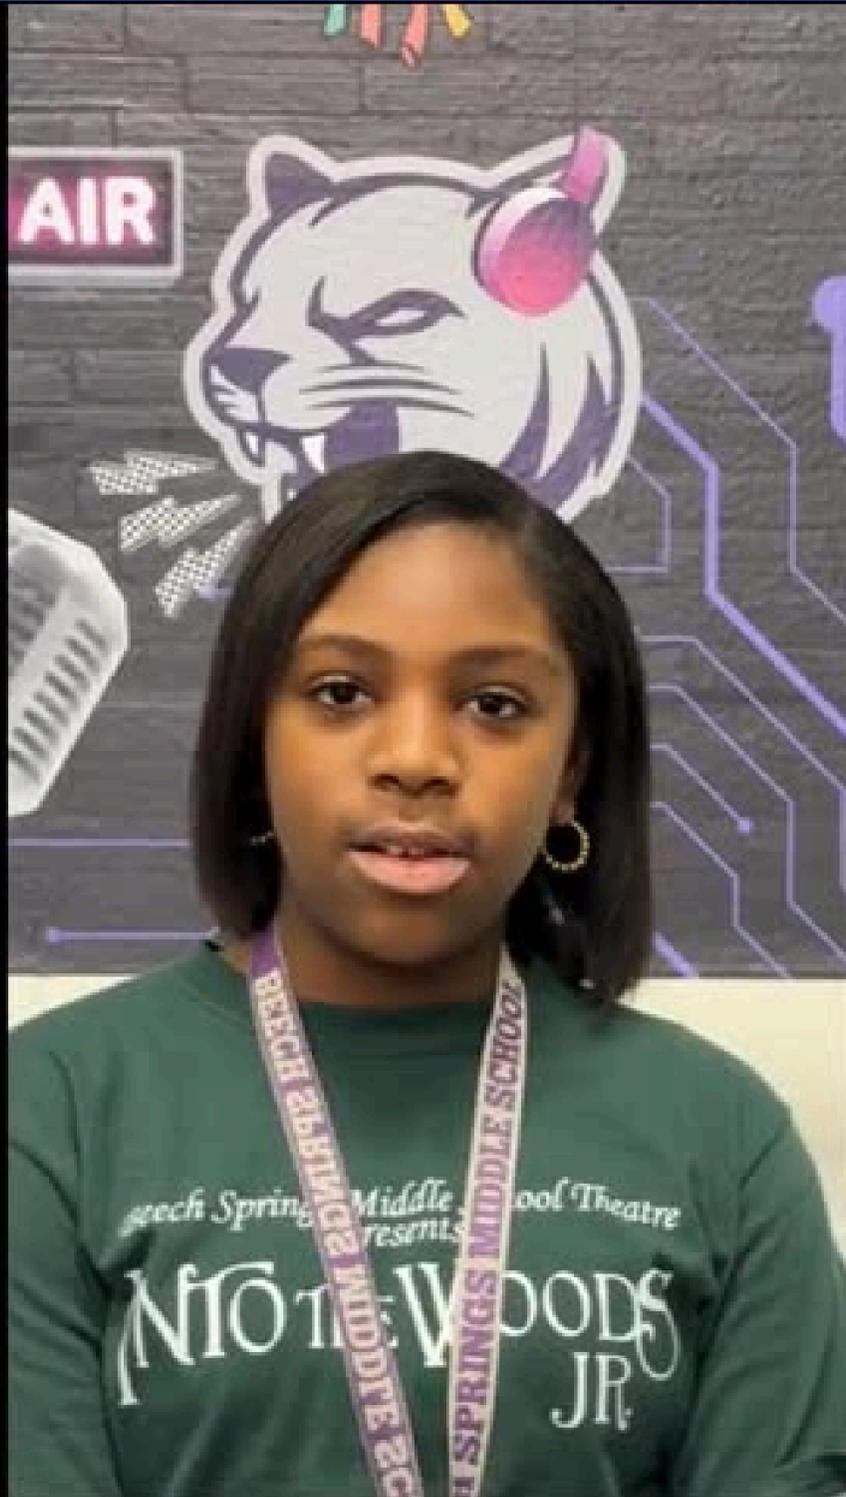

Academic Showcases

We use our communication and leadership skills to host Academic Showcases, where students present their learning through multidisciplinary research and effective communication. Families and buddy classes are invited to celebrate each student's individual achievements.
